### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James Morris on September 20, 2004.

The application has been amended as follows:

- a. In claim 1, line 5, change the phrase "provides of supply signals" with --  
**provides supply signals --**.
2. Claims 1-9 are allowed.
3. The following is an examiner's statement of reasons for allowance: the examiner is unaware of any prior art which suggests or renders obvious a semiconductor device with a voltage regulator formed of at least two transistors and at least one capacitor that is constructed directly under the power supply rails of the device.
4. Kawano et al. (USPN 6,617,620 B1) discloses a gate array which uses the area underneath and immediately adjacent to the power supply rails for building transistors and resistors. However Kawano does not disclose any specific circuit or a voltage regulator formed of at least two transistors and at least one capacitor that is constructed directly under the power supply rails of the device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
